EDUCATION

Rutgers University

BS Computer Science

New Brunswick, NJ

Expected: May 2017

Middlesex County College

AS Computer Science

Edison, NJ

Sept 2013 - May 2015

WORK EXPERIENCE

IEEE

Application Developer

Application Developer Intern

Piscataway, NJ

Aug 2015 — Present

Jun 2015 — Aug 2015

- Created web content with JavaServer Pages and HTML/CSS/JavaScript while following responsive design practices within the Liferay Java CMS.
- Redesigned the article template to dynamically create author blocks for each author of an article in order to display their personal info in an organized fashion.
- Enhanced the sliding carousel components for better interaction on mobile and tablet devices.
- Authored documentation on setting up a development environment for future interns and full-time developers.

Johnson & Johnson

Web Developer Intern

New Brunswick, NJ

Jan 2015 — Jun 2015

- Developed static web pages for jnj's Engineering Network and Project Management Network websites used by thousands of jnj employees worldwide.
- Improved existing web pages by migrating inline-styling to external CSS files, and adding cross-browser compatibility.
- Created SharePoint front-ends with HTML, CSS, and JavaScript and utilized the jQuery UI library to create responsive widgets.
- Debugged original code base as the sole developer on the team and created a standard for SharePoint web part development for future employees.
